Subject: Earth Day Celebration – Participation of Students (Grade III to V)

Dear Parents,

To sensitize students about the environment and the importance of nurturing Mother Earth, the school will be celebrating **Earth Day** through a series of engaging and educational activities.

As part of the celebration, **students of Grade III to V** are kindly requested to bring a **small potted plant on Monday** for the activity.

This initiative aims to encourage responsibility, care for nature, and a deeper understanding of our role in preserving the environment.

We look forward to your support in making this event meaningful for the students.

Warm Regards

A handwritten signature in black ink, appearing to read "Sandhya", with a stylized flourish at the end.

Ms. Sandhya Kumaria
